CALL FOR A STATE CON. VENTION.

To the Democratic and Conservative Voters of the State of Tennessee. On the recond Tuesday in November next, the important elections for Members of Congress, Governor of the State, and Members of the Legislature will be held It is deemed of the highest importance, in order to secure the complete overthrow of the political party which has for several years ruled and almost ruined us, that there should be unity of action among the Democratic and Conservative party of the State in those elections.

The Executive Committee appointed by the State Convention held in this city on the 9th day of June, 1868, have, therefore for the purpose of preserving harmony in our ranks and promoting unity of action in those elections resolved to call a convention of the Democratic and Conservative party of the State to assemble at the pose of nominating a candidate for Governor, and taking such other steps as may be necessary to secure the thorough organization of the party. The several counties in the State are, therefore requested on or before the 1st Monday in September to appoint delegates to that convention. GEO. J. STUBBLEFIED,

Chair'n State Ex'tive Committee NASHVILLE, Aug. 6, 1870.

Ir Grant fails to sustain Bullock in his efforts to defeat an election in Georgia this fall, it will be the first time he has turned his back upon a Radical lawbreaker in the South.

"AFTER us the deluge," was once a favorite motto of usurpers. But Holden last resort was involved. Kentucky gave let in the deluge in North Carolina, and the prospect is that it will sweep him and his mob from power.

Some of the Radical papers console themselves by saying the Democratic victory in North Carolina is not as large as forced upon the people by the ill-advised it might have been under the circumstances. Like Mercutio's wound, "it is not as wide as a church door, nor as deep as a well, but it will do."

Some enthusiastic fellow who believes that the national capital should be located at St. Louis, has made a calculation tha its population ten years hence will be 746,748, thirty years hence 3,622,408, and in the middle of the next century 17,437,-558. There is no doubt that by that time it will be "a right smart place."

Such is the habit of borrowing money in Chicago that the Michigan Central Railroad have two large painted signs in their depot, as follows: "Caution to passengers: Don't lend your money to strangers." Such a warning is wholly unnecessary down this way, as people here don't have money to loan.

The Philadelphia Age says, pointedly "Whittemore and Butler are types of the class of men forced into power in all the Southern States by negroes and bayonets. It is no wonder expenses are high and taxes ruinous, when such men are cutrusted with the making of laws, and the establishment of policies."

THE New York Tribune gives the list of eighty-eight Bishops who, in the memorable session of the Vatican Council of July 18, voted against the dogma of the infallibility of the Pope. Of these, twenty-five belong to Austria and the same number to France, 11 to Germany, 8 to the British Dominions, 6 to Italy, 6 to the Oriental rites of Turkey, and only 4 to the United States.

INTEMPERANCE appears to be making fearful strides in Albany, N. Y. The Argue says: "Two limbs of the law, six Government officials, one physician, and nine wives of respected citizens and mothers of interesting families, were be fore the courts during the past month on a charge of drunkeness. The disease is spreading to an alarming extent.

A LETTER from South Carolina say that Gov. Scott has commenced arming the colored militia, and has five companies already drilled and armed in Rich land county. Three companies of whites were formed, but only one was allowed arms, the other two being flatly rejected. The letter adds that there is an eviden intention to repeat the North Carolina the Radical party. Let the people make troubles in South Carolina.

THE Philadelphia Press says: "Th result of the North Carolina election dis proves the assertions of the Northern Democratic press, that Governor Holden, of that State, had been using the military for political purposes," The people of North Carolina who are in a condition to judge as to what Holden was doing, so regarded his use of the militia, and the result was that thousands who have heretofore acted with the Radicals, voted the Democratic ticket in order to rebuke the tyrant and rescue the State from the rule

In a recent letter to the Governor, Gen. Butler said: "I am clearly of the opinion that the construction of the act of Congress will not require any election to be held in favors the holding of an election in Georgia, until the Legislature chooses Georgia this fall. It is now rumored that to have one; that the present Legislature | Grant has promised Bullock the aid of is thoroughly legalized as far as an act of Federal troops to carry Georgia in the Congress can do so." Attorney General fall, should an election be ordered. This Akerman has written a letter to a number | is just like Grant. He not only promised. of leading Georgia Radicals, in which he but he sent aid to Governor Holden, and takes directly opposite ground to Butler. | yet the Democrats won the election in He maintains that the members of the North Carolina by a decided majority. THE CORRUPTION AND IMBECIL-ITY OF THE RADICAL LEAD.

The Radicals have learned a hard less

luring the present year, and yet they seem loth to profit by it. Connecticut, Oregon, New York, Kentucky, Tennessee and North Carolina have already rendered verdicts against Grant and his reckless administration. The end is not yet and some of the Radicals have perception enough to see it, and the honesty to acknowledge the fact. The Radicals who have forced negro suffrage upon an unwilling people in the Northern and Western States, are beginning at last to see that they made a grave mistake. They begin to appreciate the fact that this is a question which should have been left to the States, as had always been done from the foundation of the Government, to settle as suited their people. While the Radicals are discovering that they made a mistake in the matter of forcing negro suffrage upon the Northern people, they find that an equally fatal mistake was made in the matter of reconstructing and governing the Southern States. But this discovery was not made, so blind and reckless are the leaders of the Radical party, until the Southern States commenced wheeling into line in the Demoare many, and hardy and unscrupulous. cratic column. The Philadelphia Tele-The only thing that can save Napoleon is graph, an able and consistent Radical journal, shows how utterly corrupt and Capitol in this city on Tuesday the 13th of unworthy of confidence are the leaders of September next at 11 a. m. for the pur- the Republican party, and that as a consequence of their leadership the party is being defeated everywhere. In its issue of Aug. 9 the Telegraph says:

"The North Carolina election is another grave admonition to the Republican party that it can maintain its supremacy only by promptly correcting the evils it has too long cherished within itself. While the issues of the war were undecided, patriotic men would close their eyes to corruption, to incompetent or otherwise unworthy candidates, and to the madness of selfish leaders, and vote the Republican ticket to save the country; but now the war has garnered the fulness

of its harvest, and honest citizens will no

onger be made the supple tools of cor-

"Every election held this year has been fresh notice to the Republican leaders that the party must reform itself. Connecticut opened the campaign of 1870 with disaster, whereby a faithful and patriotic Governor was displaced by 800 majority. Oregon followed, and one of the ablest and most blameless of our Republican Senators lost his place. Washing ton City followed with an open and decisive rebuke to the political managers who claimed to be the Republican party. New York, hitherto a debatable State, gave nearly 90,000 Democratic majority, when the political complexion of her courts of no substantial Republican gains, even with her large colored vote, polled for the first time. Tennessee has given over her courts to the Conservatives, thus surrendering the last vestige of Republican power in that State, and now comes North Carolina, in the face of bayonets

counsels of bad leaders, with a Legislaure two-third Republicans in the entire Congressional delegation. A Senator is thus sacrificed. and a long stride taken toward making the next Congress Democratic. "With all these admonitions, the fessed Republican leaders close their ears to wisdom. Instead of meeting the issue frankly, and appealing to the intelligence of the people, we are met with the startling proposition that Georgia must not hold an election because the Republicans cannot carry the State! This reckless suggestion to nullify the laws and defy the people is made this morning by a Republican contemporary. If not hold an election in Georgia, why hold one in any other State? It is conceded that the Republicans cannot gain Congressmen, while t is most likely that they must lose some in most of the States. Why not, therefore, decide that all the Legislatures, and

all the Congressmen, and all the Governors shall hold over until matters can be arraigned for Republican victories? The only reason for not holding an election is that the Republicans will be defeated; and the same rule will apply with equal if not increased potency in all other States, if mad leaders insist upon defying popular opinion and insulting the intelliand patriotism of a people peculiarly jealous of popular rights. "North Carolina was last, as were most

of the other States sacrified this year by selfish and blind leadership. Gov. Holder allowed the honor and credit of his State to be destroyed by irresponsible adventarers with the hope of securing a seat i the Senate; and, to make assurance doubly sure, he undertook to force political results by armed jayhawkers, who defied the laws, ignored justice and disregarded the courts. The result was change of 25,000 to 30,000 against the Republicans, and the surrender of the State to Democracy for years to come. "In Pennsylvania the same mad polic

is aimed at. The Republican party can succeed only by deserving the approval and confidence of the intelligent and patriotic people of the State. Its abuses, corruptions and subordination to shameess pretenders like Cameron are justly appreciated by all sections, and unless the Republican organization, as an organization, shall show an earnest, deermined purpose to reform Itself, and restore the State to faithful government, we shall lose half a dozen or more Congressmen, and possibly the Legislature. tors like Wilson and Cameron, who bowed to the Washington lobby and continued the inquisitorial income tax to save cor porations from tax on gross receipts, may levy heavy tribute upon starving clerks t defray election expenses, but all the now er of money or patronage will fail to give the Republicans victory if the party does

not earn it by deserving it." This is an honest confession as to the corruption and inbecility of the leaders of a vigorous effort this fall, and they will redeem the government from the control of these reckless and unprincipled men, who are hurrying the nation on to its

The severest thing said against Eve's daughters was by Lady Mary Wortley Montague: "The only satisfaction I have in being a woman is, that I shall not be compelled to marry one of my own sex." It is evident that Miss Ellen A. Griffin, who has fallen so desperately in love with Lydia Thompson, the blond actress, does not sympathize with Lady Montague. She will follow the lovely blonde, she will Gov. Bullock has the aid and co-oper- ride with her, live with her, be with her, ation of Gen. of the clearly foreshadowed results of the "war precipitated by France against Germany is the dethronement of Napoleon III., and the expulsion of his family from power forever." It must be confessed that there is a good deal to encourage belief in this prediction. Underlying all the passion and all the excitement engendered by the defeat of the French by the Prusslans, and the humiliation of witnessing the invasion of French soil by an enemy whose power they had underrated and whose courage and military skill they had failed to appreciate, is the revolutionary element, so long held in check by the strong hand of the Emperor, but never more actively conspiring his overthrow than now. The Republicans, the Socialists, the Orleanists and the Legitimists, though differing in all things else, are nevertheless animated alike by one purpose—the dethronement and expulsion of Napoleon. For eighteen years they have been working and conspiring, openly or covertly, to attain this end. It is for this they are working now. The time seems opportune. The fortunes of the Emperor are at their lowest point of depression. His sagacity is impeached; his name is no longer a rallying cry, and his enemies

Tue Philadelphia Press insists that one

THE New York Times (Radical) says the tone and tactics of Gov. Holden's organ, the Raleigh Standard, are simply infamous." Referring to Judge Brooks' issue of a writ of habeas corpus in behalf of some of the prisoners whom Holden's man, Kirk, keeps in military custody, without other warrant than the Governor's arbitrary will, the Standard uses this

great victory over the Prussians.

"Is Judge Brooks ready to involve the people of North Carolina in civil war? Does he suppose Gov. Holden will recede before him? * * The Governor will not recede until the Federal army is used against him; and the Federal army will not be used against him. We are on the eve of civil war, and when it begins, all the blood and all the horrors of it will be on the skirts of Judge Brooks."

It will be seen that Holden's organ speaks with entire confidence as to Grant's support of Holden in his efforts to provoke civil war. The New York Times says "the Republican party cannot too soon or too emphatically repudiate both the man (Holden) and his doings." What will the Times do with Grant, who so promptly sent troops to aid Holden in his infamous course ?

An incident is told of Eiyton, a town that lay directly in the path of the Alabama and Chattanooga railroad, which illustrates how a good thing may be spoiled by a little obstinacy. The owners of property in that town and vicinity based great expectations on the immense business that was to come to it as a point gomery road. Lots were sold at fabulous prices, and the hopes indulged were as great as those of Cheyenne. But the citizens were too avaricious, and refused to admit the railroads to a share of the profits, and the road accordingly passed four and a half miles to one side, leaving played-out Elyton to come down from its

THE following paragraph has been going he rounds:

"Robert Toombs undertook to cowhide Methodist minister at Macon, Ga., the other day, but the godly man laid aside his spiritual armor, and with his carnal weapons choked Robert nearly to death." Some of the Radical press have added the military prefix of "General" to Mr. Toombs' name, in order to add a little naliciousness to the sensation. The Savannah Republican says: "We need hardly say that Gen. Toombs has no connection with any such affair, which, if it occurred at all, was simply a shindy between two negroes,"

So long as the Southern States are cursed with carpet-bag and scalawag Governors, who are not the choice of the majority of the people they govern, the taxpaying, substantial citizens of the States, fraud and speculation, and crimes of a graver and bloodier character, must prevail. What else was to be expected of G. W. CURREY, M. D., Medical Examiners. unprincipled adventurers than that they should seek to enrich themselves by plundering the people, and that to cover up their evil doings they should slander those whom they oppressed, just as it was done in Tennessee under Brownlow, in North Carolina, and, indeed, in all of the Southern States?
